

AdmiCash update information 7.9.0.0

Corrections:

- When the payment orders were send, the payment order was properly registered but not deleted. The problem should be resolved.
- In some cases, after the license order, you could not work with AdmiCash (was set to private version). The problem should be resolved.

Extensions:

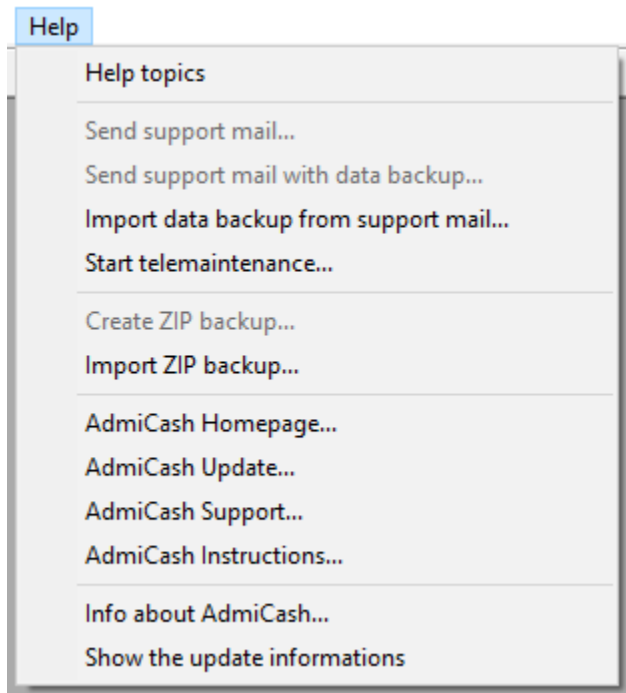

- AdmiCash has a new Auto Update. When a new version is available, you will receive a message and you can download and install the new version automatically.
- Under the menu "**Help – Show the update informations**" you can show the update informations of AdmiCash version currently installed.

New Function:

- After ordering the license, you can transfer the license invoice directly in open payments.

Notes:

- Under the menu "**Help**" you can find diverse functions of help and support.

- The most important are "**Start telemaintenance...**" and "**Info about AdmiCash...**".
- With the **key F1**, you can always access the AdmiCash guide.
